

Regulatory Update - Mexico

NOM-208-SCFI-2016 comes into force.

Further to PCS' Regulatory Alert released on 8th February 2017, NOM-208-SCFI-2016 has now been formally implemented. This regulation applies to all devices which operate within the frequency bands 2400-2483.5MHz, 5725-5850MHz and 902-928MHz.

PCS understands that some local Test Laboratories and Certification Bodies (NYCE) have obtained their accreditation and today can test and approve under NOM-208-SCFI-2016.

Local test reports and Approval certificates that were issued under IFT-008-2015 can now be updated to reference NOM-208-SCFI-2016.
